

# Convection Oven Hood

## FD-B-EB

# **Box Canopy Eyebrow Type** Exhaust Fire Damper

### **General Description**

The hood is used on commercial kitchen ovens. The hood is ceiling hung at a height recommended by the oven manufacturer. The hood is finished in a No. 4 stainless steel finish on all exposed sides. The hood is applicable for convection oven only. (Not to be used with Conveyor Oven)

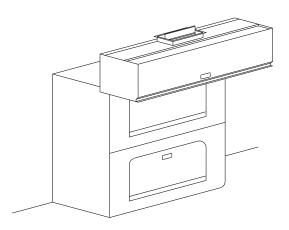

### Efficiency

The hood is equipped with high efficiency UL/ULC listed baffle grease filters. The exhaust air accelerates through multiple turns within the baffle filter. Centrifugal force causes grease dirt and lint to deposit on the baffles. The liquefied grease drains down the baffles, along the grease trough, and into a grease cup.

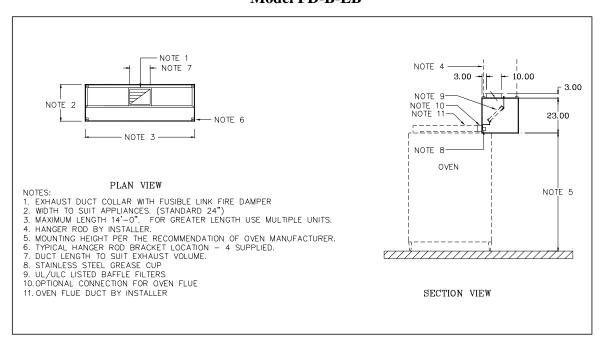

### **Exhaust and Supply**

The total exhaust air required to properly ventilate a commercial kitchen is directly related to the type of cooking

equipment under the filter hood. An exhaust flow rate between 100 and 150 CFM/ft (155 and 233l/s/m) is satisfactory for oven applications.

### **Notes:**

- Exhaust duct can be located maximum 18" off center of hood.
- For lengths greater than 14' (4270 mm) join multiple sections together

### Spring Air Systems FD-B-EB Hood Specification

The filter hood shall be a Spring Air Systems model no. FD-B-EB, box canopy, eyebrow hood. The hood shall be a minimum 18 GA. stainless steel on all exposed surfaces.

The hood shall be UL/ULC listed, and built in accordance with the NFPA-96. The hood shall include UL/ULC listed baffle grease filters mounted in an integral stainless steel rack inclined at 45 degrees. The filter rack shall include a full-length stainless steel grease gutter and grease cup.

The fire damper shall be an arrangement "D", butterfly type, constructed of stainless steel with metal blade and edge seals. The fire damper shall be activated by a fusible link and dead weight arrangement.

| The hood shall have      | fluorescent or incandescent |
|--------------------------|-----------------------------|
| lights evenly spaced alo | ong the length of the hood. |
